

Senior Synergy Optimization Liaison

Department: Strategic Enablement & Cross-Functional Acceleration

Location: Hybrid-flex remote-forward environment

Reports To: Director of Vision Alignment Operations

Travel: Up to 7–43% depending on quarterly bandwidth realities

Position Overview

We are seeking a dynamic, solutions-oriented professional to drive enterprise-level collaboration across multiple stakeholder ecosystems while leveraging scalable paradigms and actionable innovation vectors. The ideal candidate is passionate about operationalizing strategic thought leadership through agile communication frameworks and metrics-adjacent deliverables.

This role will play a critical part in championing transformational alignment initiatives while ensuring seamless continuity across both legacy modernization pathways and future-facing optimization channels.

Key Responsibilities

- Facilitate cross-functional ideation cadences to maximize synergy throughput.
- Develop scalable stakeholder engagement matrices using best-practice alignment methodologies.
- Translate executive-level narratives into actionable roadmap artifacts with measurable optionality.
- Partner with internal and external teams to streamline dynamic workflow ecosystems.
- Drive continuous improvement initiatives through KPI-informed thought partnership.
- Maintain visibility into evolving industry disruptors and proactively socialize emerging paradigms.
- Coordinate recurring touchpoints to ensure holistic transparency across organizational verticals.
- Enable data-driven storytelling through integrated dashboard harmonization strategies.
- Support ad hoc transformation efforts as business priorities continue to evolve in real time.

Required Qualifications

- Bachelor's degree in Business, Communications, Innovation Studies, or equivalent experiential fluency.
- 3–12 years of demonstrated success in fast-paced collaborative environments.
- Proven ability to manage competing priorities within ambiguity-rich ecosystems.
- Exceptional interpersonal communication skills, both strategic and tactical.
- Advanced proficiency in Microsoft Office, Slack, Zoom, and at least one platform nobody fully understands.
- Experience leveraging AI-enabled enablement solutions preferred but not required.
- Strong mindset around ownership, accountability, and proactive alignment behaviors.

Preferred Attributes

- Comfortable navigating matrixed organizations with evolving accountability structures.
- Ability to synthesize complex deliverables into executive-ready narrative streams.
- Passion for cultivating culture, momentum, and scalable excellence.
- Thrives in environments where priorities may pivot before they are defined.

What We Offer

- Competitive compensation benchmarked against market-adjacent indicators.
- Flexible PTO with manager-informed utilization guidance.
- Career growth opportunities through leadership visibility exposure.
- Inclusive culture centered around authenticity, innovation, and continuous transformation.
- Access to wellness-forward programming and optional engagement experiences.

Our Mission

To empower collaborative ecosystems through transformational alignment, enabling tomorrow's outcomes today through strategic acceleration and people-centric innovation excellence.
